

## **AUTOMATED DAIRY FARM SOLUTIONS**

Table Number – 1

Table Name – Registration Table

Sl. No.	Field Name	Datatype	Description
1	Reg_id	int	Primary key
2	lid	int	Foreign Key from tbl_login
3	fname	varchar	First Name
4	lname	varchar	Last Name
5	Phone Number	varchar	Contact Number
6	Email	varchar	Email of the user
7	Status	int	Active/Inactive

Table Number – 2

Table Name – Login Table

Sl. No.	Field Name	Datatype	Description
1	lid	int	Primary Key
2	email	varchar	Username of the user
3	password	varchar	Password of the user
4	usertype	varchar	Seller/Buyer
5	Status	int	Active/Inactive

Table Number – 3

Table Name - Shopping Cart Table

Sl. No.	Field Name	Datatype	Description
1	Cart_id	int	Primary key
2	lid	int	Foreign key from tbl_login
3	Product_id	varchar	Foreign key from tbl_product
4	Number of items	int	Count of items ordered
5	Total Amount	int	Amount to be paid
6	Status	int	Remove/Proceed

Table Number – 4

Table Name – Product Table

Sl. No.	Field Name	Datatype	Description
1	Product_id	varchar	Primary Key
3	ProductName	varchar	Name of the product
4	ProductPrice	varchar	Amount of the product
5	ProductBrand	varchar	Product's brand
6	Quantity	varchar	Quantity of a product
7	ProductCategory	varchar	Product's category
8	ProductImage	varchar	Image of a product
5	Status	int	Active/Inactive

Table Number – 5

Table Name – tbl\_seller

Sl. No.	Field Name	Datatype	Description
1	seller_id	int	Primary key
2	lid	int	Foreign key from tbl_login
3	productname	varchar	Name of the product
4	Quantity	varchar	Quantity chosen
5	Date of selling	date	Date of selling
7	Status	int	Completed/Denied

Table Number – 6

Table Name – tbl\_order

Sl. No.	Field Name	Datatype	Description
1	orderID	int	Primary key
2	lid	int	Foreign key from tbl_login
3	Product_id	varchar	Foreign key from tbl_product
4	Number of items	int	Count of items ordered
5	Total Amount	int	Amount to be paid
6	Date	date	Date ordered for the product
7	Status	int	Completed/Denied

Table Number – 7

Table Name – orders\_info

Sl. No.	Field Name	Datatype	Description
1	orderID	int	Primary key
2	lid	int	Foreign key from tbl_login
3	fname	varchar	Name of the user
4	email	varchar	Email of the user
5	Address	varchar	Address of the user
6	city	varchar	City of the user
7	Zip code		Zip code of the user
8	Card name	varchar	Name of the card
9	Card number	varchar	Card's number
10	Date	date	Date of purchasing
11	Product_count	int	Number of products
12	Amt	int	Total amount
13	Status	int	Approved/Cancelled
